ARTFORDABLE AND FUTURE VINTAGE AUCTION

Auction Notification

SIDHartA Auctioneer is an official auction that is monitored by the Office of Auctions of the Direktorat Jendral Kekayaan Negara Indonesia . An Auction Registrar, Chitra Mukhsin is present on behalf of the Office of Auctions to monitor that the auction is run properly, provide an official report to the government and ensure that the winning bidders comply with their part, ie make payment in full and in due time.

This auction is a regular Continental Style auction. Bidders bid the lots they desire until the highest bid is reached. There is a 22% buyer's premium charged on top of hammer price that is to be paid by the winning bidder in addition to the hammer price itself.

You will find the lots to be auctioned in sequence, starting from the lowest number to the highest number. Live and online auction usually goes at a rate of 50 lots per hour. 166 lots should take around 2 hours, 20 minutes.

The estimate price of the lot reflects roughly the current price of the artworks, meaning in normal circumstances, a bidder placing a bid within the range of the estimate should be able to win the lot, unless there is unusual competition. However, depending on demand, a bidder may also be able to win the lot at a price either lower than the low estimate (at the reserve price), or even win the piece at a price higher than the high estimate.

Most of the lots do have a reserve, a minimum limit price at which the owner/vendor of the lot agrees to let go of the lot. Auctioneer is allowed to execute bidding up to the reserve, on behalf of the owner/vendor of the lot. That is what is going on when bidding has started, and the Auctioneer counters the bid by saying that a bid of a certain lot is still "with me". Until bidding reaches the reserve, a lot cannot be considered sold. So a lot is only considered sold if it has already reached the reserve.

Bidding does not stop only until the reserve is reached, but it continues until the highest bid has been reached and the auctioneer will count up to three to make sure that there are no more bids. The Auctioneer will strike the hammer strike is to signify that the lot has been sold and call out the paddle number of the bidder and the hammer price.

We commonly have Written Bids, Phone Bids and Online Bids. Our operators on the phone will execute bids on behalf of the phone bidders who are monitoring the auction via the phone. Absentee Written Bids have also been placed with the Auctioneer and they have been registered in the auction book. Online Bids are executed automatically via the internet.

The Auctioneer will execute the Absentee Bids up to the limit that they have provided, and you will also hear that the absentee bid is “with me”, and the Auctioneer will indicate that the bid is a Written Bid that is left by an Absentee bidder. So, bidders on the floor will be also competing with Absentee Bidders who have left their bids with us, phone bidders, and online bidders.

The lot in the auctions are sold as is and condition reports of each lot is available upon request. You should have consulted the works that you want to buy. If there are certain mistakes in the wording of the information of the lots in the catalog, we will put them up in Sale Room Notices.

Certificates: We are not authorized, do not and will not publish certificates. So unless there is mention of certificates in the auction catalog, please do not expect to obtain any certificates from us.

Our office operates from Tuesday to Saturday; therefore, you should receive the invoice inclusive the 22% premium by today or at the latest on Tuesday or Wednesday.

We accept bank transfer and credit card payment, and it is expected to be completed in three days. You may pick up the lots by showing necessary proofs of payment or it can also be delivered at a reasonable extra cost.

Thank you & happy bidding!
